

New TRS-ActiveCare Benefit

Help TRS-ActiveCare participants lower their out-of-pocket costs on advanced imaging services--CT, PET and MRI scans--by using USIN and its network of certified facilities (over 180 in Texas alone)

- **What is USIN?** US Imaging Network is a new, advanced imaging benefit option for TRS-ActiveCare participants. As of September 1, 2017, TRS-ActiveCare participants can access this new option for advanced imaging including MRI, CT and PET scans and save on out-of-pocket costs.
- **Which Members are Eligible?** All TRS-ActiveCare members – **other than those in an accountable care organization**¹ - are eligible for the USIN benefit.
- **Potential Significant Out-of-Pocket Savings.** Members may save significantly on their out-of-pocket costs – up to \$500 per scan or more. See the [savings chart](#) (over) comparing USIN costs versus higher cost alternatives.
- **What Should a Member Do? USIN will call the Member.** After the doctor's office submits the imaging request to Aetna and the image is pre-authorized, if a lower-cost alternative is available the USIN concierge desk will call the member directly within 48 hours.² USIN will describe the participant's options over the phone and help arrange the appointment. Simple as that!

The member can add USIN's concierge desk number (214-561-1721) to their contacts so they'll know when USIN is calling.

USIN is available to answer any additional questions a benefits administrator may have via phone at 212-300-0739 or via email at fmahoney@usimagingnetwork.com.

¹ Enrollees in the ActiveCare Select Whole Health plans are NOT eligible for the USIN benefit.

² If no lower-cost alternative is available at a USIN facility the member will **not** receive a call from USIN within the 48-hour period. These participants should proceed with their scheduled scan or can contact Aetna Customer Service if they have any questions.

**TRS-ActiveCare - USIN Advanced Imaging Benefit
Participant's Potential Savings (1)**

Texas Average, Dallas and El Paso Sample Markets

Plan	Advanced Imaging Benefit Participant's Out-of-Pocket Costs (1) (In-Network Facilities and Hospitals)
ActiveCare Select	\$100 Co-Pay Plus 20% Co-Insurance
ActiveCare2	\$100 Co-Pay Plus 20% Co-Insurance
ActiveCare 1-HD	20% Co-Insurance

Participant's Cost and Savings (1) - Texas Average

Plan	USIN Advanced Imaging Cost		In-Network Hospital Cost (2)		Participant Potential Savings (3) (per scan)	
	CT	MRI	CT	MRI	CT	MRI
ActiveCare Select and ActiveCare2	\$169	\$203	\$679	\$481	\$509	\$278
ActiveCare 1-HD	\$89	\$123	\$599	\$401	\$509	\$278

Participant's Cost and Savings (1) - Dallas Market Sample

Plan	USIN Advanced Imaging Cost		In-Network Hospital Cost (2)		Participant Potential Savings (3) (per scan)	
	CT	MRI	CT	MRI	CT	MRI
ActiveCare Select and ActiveCare2	\$175	\$220	\$679	\$481	\$504	\$261
ActiveCare 1-HD	\$95	\$140	\$599	\$401	\$504	\$261

Participant's Cost and Savings (1) - El Paso Market Sample

Plan	USIN Advanced Imaging Cost		In-Network Hospital Cost (2)		Participant Potential Savings (3) (per scan)	
	CT	MRI	CT	MRI	CT	MRI
ActiveCare Select and ActiveCare2	\$168	\$189	\$679	\$481	\$510	\$292
ActiveCare 1-HD	\$88	\$109	\$599	\$401	\$510	\$292

(1) Sample participant costs based on participant having met annual deductible. See TRS-ActiveCare plans for further details.

Sample costs are for basic exams without contrast. Actual costs will be based on specific exam required.

(2) All hospital costs based on average hospital costs of all TRS-ActiveCare participants during the payment period 9/1/16 to 4/30/17.

Average Texas, Dallas and El Paso hospital costs may vary from the overall average costs incurred by all TRS-ActiveCare participants.

(3) Amounts may not add due to rounding.
