1 Request a visit

Suffering from a minor illness or setback?
Request a visit 24/7/365.

To get started, create an account. Then using your phone, computer or mobile device request a video exam.

2 Speak with your provider

After reviewing your chart and medical history your provider will start the visit. *(Video Link via Text and Email)*

Discuss your symptoms and treatment options with a board certified medical provider licensed to practice in your state.

3 Receive Treatment

Follow your personalized treatment plan and feel better faster.

When medically necessary, your medical provider may write you a prescription, which you can pick up at your local pharmacy. Learn more about our [Prescription Policy](#).

4 It's that simple

Plus, you'll always have access to your account, no matter where you are.

- **Call us 24/7** - even nights, weekends and holidays
- **View care** instructions in your patient dashboard at anytime.
- **Share your visit details** with your primary care provider
