

Offer Life Insurance with Long-Term Care protection

Almost 70% of people turning 65 today will need long-term care at some point in their lives.¹

Our Group Term Life insurance supports families financially if the worst happens, and even pays benefits while they're still living, to support home health care or assisted living.

Long-Term Care

If an employee becomes chronically ill, the plan can be structured to allow for a portion (e.g. 25%, 50%, 75%, etc) of their death benefits can be accelerated for home health care, assisted living, adult day care, and nursing home care. Early payments equal 4% of the death benefit per month for up to 25 months. Premiums are waived while this benefit is being paid. Chronically ill means being unable to perform, without substantial assistance, at least two activities of daily living for a period of at least 90 days, or severe cognitive impairment. Activities of daily living include bathing, continence, dressing, eating, toileting and transferring.

Up to **\$108,405** 

That's the annual average cost for long-term care in the United States.²

An example 50% of the death benefit can be advanced to cover LTC	Life situation	Death Benefit	Long-Term Care	Total Benefits
01. Life Insurance	The employee leads a full life and does not need long-term care (LTC).	\$100,000		
02. Split the Death Benefit for LTC & Life Insurance	The employee leads a full life but also needs some LTC funds (example: 4% of \$100,000 for 12 months).	\$52,000	\$48,000	\$100,000
Option 1 or 2 + Extra LTC coverage = Total coverage of \$100,000
