

Coverage against unplanned medical emergencies is surprisingly affordable.

Facts You Should Know

- Emergent Ground Ambulance transports can easily surpass \$2,000 and can reach as high as \$5,000.
- Emergent Air Ambulance transports frequently cost more than \$40,000, reaching as high as \$70,000.
- If you are in need of specialized care and can be transported on a non-emergent basis, it is common for a medically equipped plane to cost more than \$20,000.
- Most people assume that their health insurance will cover most, if not all, of the costs for these transports. Usually, the opposite is true, leaving you with financially crippling bills.
