What is Accident Insurance?

Accident Insurance pays you benefits for specific injuries and events resulting from a covered accident that occurs while you are not at work, on or after your coverage effective date. The benefit amount depends on the type of injury and care received. You have the option to elect Accident Insurance to meet your needs. Accident Insurance is a limited benefit policy. It is not health insurance and does not satisfy the requirement of minimum essential coverage under the Affordable Care Act.

Features of Accident Insurance include:

- **Guaranteed issue:** No medical questions or tests are required for coverage.
- **Flexible:** You can use the benefit payments for any purpose you like.
- **Portable:** If you leave your current employer or retire, you can take your coverage with you.

How can Accident Insurance help?

Below are a few examples of how your Accident Insurance benefits could be used:

- Medical expenses, such as deductibles and copays
- Home healthcare costs
- Lost income due to lost time at work
- Everyday expenses like utilities and groceries
