

NEW FEATURE: MOBILE APP

TAKE IMMEDIATE ACTION AGAINST IDENTITY THEFT WITH OUR MOBILE APP

Today's cybercriminals count on slow response times to identity theft alerts and credit card fraud. They use stolen credit cards to hit multiple web sites within a few minutes, committing more costly damage in a shorter amount of time than was previously possible. The faster the response, the less damage they can do.

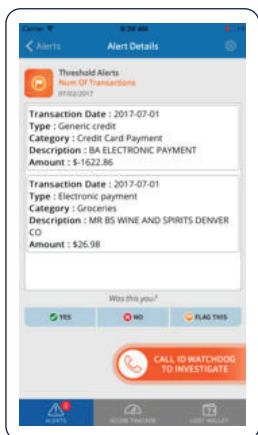

With the ID Watchdog Mobile App, customers can take immediate action against identity theft. They receive instant fraud alerts and can respond promptly—even when they're on the go.

KEEPING DIGITAL LIVES SECURE

ID Watchdog enables users to monitor their finances and personal information with just a few clicks on the mobile app.

- » View credit score and credit history.
- » Digitally store wallet contents in case of loss or theft—scan and update card details any time.
- » Control preferences, including alerts and security settings.
- » Enhance dashboard login security with two-factor authentication.

THE KEY IS FASTER RESPONSE TIMES

ID Watchdog's Mobile App provides peace of mind for users by keeping a pulse on personal and financial information—no matter where they go.

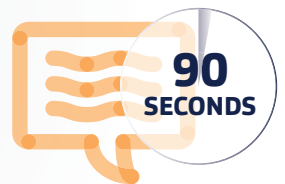

- » Get fraud alerts immediately.
- » Drill into alert details and history, and flag alerts for follow up.
- » Contact our 24/7 Customer Care Center using one-touch calling right from the app.

RESPOND MORE QUICKLY WITH IMMEDIATE ALERTS

It takes an average of 90 minutes to respond to emails...

and 90 seconds to respond to text messages.

With mobile alerts, you can respond even faster to protect your identity.
