

Give You and Your Family the
Ultimate Peace of Mind!

Any Ground. Any Air. Anywhere.

Many Americans tend to believe their health insurance covers most, if not all, ambulance expenses. The truth is it likely DOES NOT! Even after insurance, the financial burdens that could arise due to extremely high medical transportation costs are very real.

Did You Know:

- **Emergent Ground Ambulance transports can easily surpass \$2,000 and can cost as much as \$5,000.**
- **Emergent Air Ambulance transports frequently cost more than \$40,000, and can be as high as \$70,000.**

- **If you are in need of specialized care and can be transported on a non-emergent basis, it is common for a medically equipped plane to cost more than \$20,000.**
 - **Some studies have shown that approximately 30% of hospital to hospital transports were deemed "non-emergent" in nature which is now leading to increase in denial rates --- leaving the patient with the ENTIRE bill!**
 - **There is an upward trend of claim denials by health insurance carriers due to "medical necessity" regardless if the provider is in-network or not --- leaving the patient with the ENTIRE bill!**
-

Only MASA MTS:

- **Provides emergent transport coverage ANYWHERE in all 50 states and Canada for BOTH emergent ground**

ambulance and air ambulance transport **REGARDLESS**
of the provider.

- Provides **non-emergent transport services** that are frequently covered inadequately by your insurance, if at all.
 - Provides a **guarantee of no out-of-pocket costs** for the emergent transport if you are transported by a provider that is in-network with your health insurance. If your insurance denies the claim and the transport is considered a qualified "emergent transport" under MASA's guidelines, **MASA will still guarantee ZERO out-of-pocket costs.**
 - Provides many other **valuable benefits** depending on the membership level enrolled, including many **worldwide benefits.**
-
