What is a Flexible Spending Account (FSA)?

Flexible Spending Account (FSA)

Two Types of FSAs

To take advantage of a health FSA, start by choosing an annual election amount. This amount will be available on day one of your plan year for eligible medical expenses.

Payroll deductions will then be made throughout the plan year to fund your account.

A dependent care FSA works differently than a health FSA. Money only becomes available as it is contributed and can only be used for dependent care expenses.

Both are pre-tax benefits your employer offers through a cafeteria plan. Choose one or both — whichever is right for you.

What is a Cafeteria Plan?

A cafeteria plan enables you to save money on group insurance, healthcare expenses, and dependent care expenses. Your contributions are deducted from your paycheck by your employer before taxes are withheld. These deductions lower your taxable income which can save you up to 35% on income taxes!

Partial List of Eligible Expenses:

- ✓ Medical/Dental/Vision Copays and Deductibles
- ✓ Prescription Drugs
- ✓ Physical Therapy
- ✓ Chiropractor
- ✓ First-Aid Supplies
- ✓ Lab Fees
- ✓ Psychiatrist/Psychologist
- ✓ Vaccinations
- ✓ Dental Work/Orthodontia
- ✓ Eye Exams
- ✓ Laser Eye Surgery
- ✓ Eyeglasses, Contact Lenses, Lens Solution
- ✓ Prescribed OTC Medication

Enrollment Consideration

After the enrollment period ends, you may increase, decrease, or stop your contribution only when you experience a qualifying “change of status” (e.g. marriage, divorce, employment change, dependent change).

Be conservative in the total amount you elect to avoid forfeiting money at the end of the plan year.
