CONTINUATION OF COVERAGE

If the Certificateholder loses eligibility for the coverage provided under this group policy as stated in the Termination provision, the Certificateholder will have the option to continue the coverage, including any riders, by paying the premiums directly to us at our Administrative Office. We will bill the Certificateholder for these premiums. If the Certificateholder stops paying premiums under this option, the coverage may enter its Grace Period.

We must receive a written request for this continuation of coverage option within 30 of the date the certificate would otherwise terminate. No continuation of coverage will be provided if insurance under the policy terminated due to the discovery of fraud or material misrepresentation or due to the Certificateholders' failure to make required premium payments.

CONTINUING COVERAGE FOR INJURY, ILLNESS

Total Disability means that, due to an Injury or Sickness, a Covered Person:

- a. is unable to perform the Substantial and material duties of the work-related tests prescribed in the terms /concepts of Regular Job, Regular Occupation, Regular Specialty or any gainful Occupation for which the Covered Person is qualified by reason of education, training or experience, as applicable; and
- b. is not in fact engaged in any Job for wage or profit.

If You become totally disabled not actively at work while insured under the policy, insurance will be continued with payment of premium upon receipt of proof by the Company that the insured person has been totally disabled for 12 months. The policyholder and certificateholder shall be responsible to pay the premium for the continuation on the same basis as premium was paid on the day before total disability began. The continuation shall be provided for life insurance benefits that were in force under the certificate on the day before total disability. Coverage will be continued for 12 months. Notice of satisfactory proof of loss must be submitted no later than 12 months after the insured person has been continuously disabled for 12 months. Failure to furnish proof of total disability within the time required will not invalidate or reduce any claim if it was not reasonably possible to give proof within such time, provided such proof is furnished as soon as reasonably possible. If the insured person dies during the continuation period, the Company shall pay the certificate death benefit to the beneficiary upon receipt of proof of loss establishing that the insured person died during the continuation period. If at the end of the continuation period the insured person is no longer eligible for insurance under the certificate, the conversion privilege section of the certificate shall describe the insured person's right to convert

.MISSTATEMENT OF A COVERED PERSON'S AGE

If the age of any person insured under the Policy has been misstated, there shall be a fair adjustment of Premiums. If such person's amount of insurance depends on age, that person's amount of insurance shall be adjusted to an amount determined by such person's correct age.

PORTABILITY

You may "port" (or buy) Group Life insurance coverage when You are losing coverage because Your employment is being voluntarily or involuntarily terminated. The portable group insurance coverage is provided under the same Group Policy and offers group term Life, for members and their dependents, as well as Dependents Life insurance and ends when the Policy ends unless notification by You to continue this coverage is provided within 30 days of the event. The amount of coverage eligible for portability is limited to a maximum of \$150,000 on each insured employee or spouse. Children coverage may be maintained under the Children's Term Insurance rider, under the certificate it was originally issued, if that coverage is part of the portability request. All other previously issued riders are similarly eligible for portability.

How It Works

The Portability option allows terminating employees to continue their life insurance coverage while the Group Master Policy is in effect. This means you can take your coverage with you at a reasonable group rate when you leave your job. Portability coverage shall only be available for amounts of group term insurance for which no application to convert has been made.

Eligibility

When group life plans offer the Portability option, Portability coverage is available to employees when their employment terminates, the policy remains in force provided that you have been covered by this Certificate for at least 30 days. Check with your employer regarding which specific group life coverage that includes the Portability option.

If your life plan contains a Portability provision for spouse and dependent(s), you may also be able to elect Portability coverage for them, as long as they're insured under your current group life coverage and not entering active military service. Spouse coverage and dependent child coverage are subject to maximums of \$50,000 and \$10,000, respectively.

You don't have to elect to continue coverage under the provision in order for your spouse to do so. However, you or your spouse must elect Portability coverage to continue coverage for your dependent child(ren).

Term of Coverage

You and your spouse can continue Portability coverage until age 121. You are responsible for paying your premiums on the ported coverage on a monthly basis. Dependent child coverage can be continued under the Portability provision until age 19 (age 26 if the child is a full-time student).

If a Covered Person dies within 31 days of the date insurance ends under the Certificate, and an application for portability coverage is not received by Us during such time, We shall pay the life insurance benefit in accordance with the conversion provision. If an application for portability coverage is received by Us during such period, We shall pay the amount of life insurance, exclusive of additional benefits, that the Covered Person was entitled to convert under the terms of the certificate. Any premiums paid for the portability coverage shall be refunded. In no event shall We be required to pay the death benefit under the conversion, portability coverage, and the continuation provisions of the certificate.

If application and Premium payment has been made for the conversion policy, any premiums paid for the conversion policy shall be refunded. In no event shall We be liable to pay a death benefit under both the group policy and the conversion policy.

If application and Premium payment is made for portability coverage and You die during the conversion period, We shall pay the amount of life insurance, exclusive of additional benefits, that You were entitled to convert under the terms of the certificate. Any premiums paid for the portability coverage shall be refunded. For a Dependent Spouse to be eligible for conversion, You must have been insured under this Policy for at least five (5) consecutive years. The Dependent Spouse must apply for conversion and pay the first Premium within 31 days of the date insurance ends. The provisions for conversion described in **If a Dependent's Life Insurance Ends** will apply, except that the maximum conversion amount is \$10,000.

CONVERSION POLICY REPLACES GROUP AMOUNT

The converted amount of life insurance will replace the group life insurance amount the Dependent was eligible to convert. Premiums for the conversion policy shall be based on:

1. Our rates in use;
2. The form and amount of insurance;
3. The Dependent's class of risk; and
4. The Dependent's attained age when insurance ends or is reduced. When insurance is reduced:
 - a. If the Dependent elected not to convert a reduced amount of life insurance, The Dependent shall not have the right to convert such amount at a later date
 - b. We must receive a completed application and required Premium within 31 days after insurance ends or is reduced (the "conversion period");

NOTICE OF CONVERSION

A written notice of the conversion right shall be mailed to the Dependent by Us or the Policyholder, at their last known address, at least 15 days prior to the date insurance ends or is reduced. The right to convert will expire on the later of 16 days after the Dependent receives such notice or the end of the conversion period, but in no event shall the right to convert extend beyond 60 days after the expiration of the conversion period.

IF DEPENDENTS DIE BEFORE CONVERTING INSURANCE

If a Dependent dies during the 31 day period allowed for conversion, We will pay the amount the Dependent was eligible to convert, whether or not the Dependent had applied for a converted Policy, exclusive of additional benefits, that the Dependent is entitled to convert under the terms of the Certificate. If application and Premium payment has been made for the conversion policy, any premiums paid for the conversion policy shall be refunded. In no event shall We be liable to pay a death benefit under both the group policy and the conversion policy.

If application and Premium payment is made for portability coverage and the Dependent dies during the conversion period, We shall pay the amount of life insurance, exclusive of additional benefits, that the Dependent was entitled to convert under the terms of the certificate. Any premiums paid for the portability coverage shall be refunded. In no event shall We be liable to pay a death benefit for both the coverage that the Dependent was entitled to convert and the amount that the Dependent ported, whether such ported coverage is to be provided under the same or a different group policy.

NOTICE AND EXTENSION

We will give You Written notice of the right to convert Dependent coverage at least 15 days before the end of the Conversion Period. If We do not give You Written notice within 15 days, the time allowed for You to exercise the conversion privilege will be extended for a period of 15 days following the date You receive the Written notice. In no event will the extended period exceed 60 days after the expiration of the Conversion Period. We will deliver the Written notice to Your last known address. If You elect not to convert a Dependent's reduced amount of life insurance, You shall not have the option to convert such reduced amount at a later date.

DEATH BENEFIT

5 Star Life will pay the Coverage Amount to Your Beneficiary upon receipt at its Administrative Office of due proof of the death of the insured while covered under this Coverage. The "Coverage Amount" is equal to the amount of life insurance Coverage in force under this Coverage at the insured's death, as determined from the Benefits Summary.

The Employee's Beneficiary can be determined from the Beneficiary provisions.

The death benefit will be paid in one sum.

The Minimum Coverage Amount is level for at least the first ten (10) years and decreases annually thereafter. However, the projected Enhancement to the Minimum Coverage Amount is anticipated to increase the actual Coverage Amount in order for it to remain level for the duration of the Policy. Refer to Table A for Minimum Coverage Amounts in year 11 and thereafter.

An Emergency Death Benefit equal to the lesser of 50% of the Coverage Amount in force or \$10,000 will be payable within 24 hours of Our being notified of the Insured's death, unless the death is within the contestability period and/or under investigation. The Insured's death must occur while he or she is Insured under this Policy. The Emergency Death Benefit is payable in one sum only and shall be deducted from the Coverage Amount in force on the Insured at the date of death.

We will pay interest as required by jurisdictions on proceeds paid in a lump sum in the event of the Insured's death.

SUICIDE

This provision shall not apply to Coverage in effect for two (2) continuous years. If the insured commits suicide, while sane or insane, during a period of two (2) continuous years of Coverage under the Policy or a Prior Policy issued by Us, We will pay in lieu of all other benefits an amount equal to the Premiums paid. If the insured commits suicide, while sane or insane, during a period of 2 continuous years after an increase in Coverage, but after the initial Coverage was in effect for two (2) continuous years, We will pay the initial Coverage amount plus the Premium paid on the increase over the initial Coverage. If the law of the jurisdiction where the Policy is issued provides a different period, the law of that jurisdiction will govern.

This rider is issued in consideration of the enrollment form and/or evidence of insurability form for this rider. Benefits are subject to the provisions of this rider and the certificate. All terms defined in the certificate and used in this rider apply to this rider, unless otherwise defined in this rider.

DEFINITIONS

Death Benefit Advance. The advance, during the covered person's lifetime, of a portion of the death benefit amount.

Certificate. The certificate to which this rider is attached.

Policy. The policy to which this rider is attached.

Certificate Insured. The person named as the covered person in the certificate.

Rider Date. The effective date of this rider. The rider date is the certificate date, unless this rider is applied for at a later date. If this rider is applied for at a later date, the rider date is the effective date assigned by our Administrative Office in accordance with our dating rules in effect at the time this rider is issued.

Terminal Illness. An illness or physical condition as diagnosed by a licensed physician:

1. expected to result in the insured's death within 12 months, (24 months or less in Illinois, Kansas, and Massachusetts), or other period of time as stated by state law; and
2. for which there is no reasonable prospect for recovery.

PAYMENT OF BENEFITS

If the insured incurs a terminal illness while coverage under this rider is in effect, you may request a death benefit advance. We agree to pay to you the death benefit advance amount upon our receipt of all of the following:

1. your written election of the death benefit advance; and
2. the written consent of any irrevocable beneficiary or any assignee, that you may elect the death benefit advance; and
3. a written opinion of the insured's physician that states the diagnosis of the insured's medical condition and that such medical condition is a terminal illness as defined in this rider; and
4. approval by our medical director. The death benefit advance can only be elected once, per certificate, subject to the limits outlined in the Calculation of Payment provision.

The death benefit advance can only be elected once, per certificate, subject to the limits outlined in the Calculation of Payment provision.

Your election of the death benefit advance is automatically voided and no benefit is payable under this rider if the insured dies after the above requirements are met and before we have paid the benefit.

Any amount later payable under the certificate as a death benefit is reduced by the amount of the death benefit advance.

Calculation of Payment. The amount available for death benefit advance is 75% of the death benefit amount for the certificate (excluding any term riders and accidental death benefit rider) on the insured's life subject to a maximum of \$100,000.

We will pay You the full percentage of the Coverage Amount elected, subject to any processing charge of up to \$250, based on a present value calculation at a 0% interest rate with no actuarial discount.

The death benefit advance amount payable to you is discounted at the current discount rate.

The death benefit advance and any remaining death benefit amount for the certificate will be determined at the time the claim is made.

If you elect this benefit on more than one certificate that the insured has with us, we retain the right to utilize the death benefit of one certificate completely prior to using another certificate.

Cancellation of this Benefit: This benefit may be cancelled by a written request from You. The date of cancellation will be the date We receive the written request at our Administrative Office. We will refund a pro rata part of any premium paid for this benefit beyond that date. Cancellation of this Benefit shall not prejudice the payment of any benefits for any qualifying event that occurred while the Rider was in force.

Waiver of Premiums Benefit. We waive premiums for the certificate and any riders attached to the certificate if the death benefit advance is paid. This waiver of premium benefit is in lieu of any other premium waiver benefit provided by the certificate or a rider attached to the certificate.

Waiver of premiums will:

1. begin on the premium due date on or next following the date you provide us with satisfactory evidence of terminal illness as defined in this rider; and
2. continue until the certificate terminates.

ACCELERATED DEATH BENEFIT FOR TERMINAL ILLNESS DISCLOSURE STATEMENT

IMPORTANT NOTICES TO OWNER

- (1) This is an optional Rider that provides an Accelerated Death Benefit for Terminal Illness.
- (2) The underlying policy is a Term to Age 121 life insurance policy that does not include COI (cost of insurance) charges, loans, non-forfeiture values or liens.
- (3) The Coverage Amount will be reduced if an Accelerated Death Benefit is paid.
- (4) The payment of the Overall Maximum Death Benefit Amount of 75% will cause termination of this Rider but the Policy will remain in force subject to its conditions and the reduced Coverage Amount.
- (5) Although the Accelerated Death Benefits for Terminal Illness are intended to qualify for favorable tax treatment there are circumstances when receipt of an accelerated benefit payment may be taxable. Receipt of this benefit may adversely affect Your eligibility for Medicaid or other government benefits or entitlements and may have income tax consequences. You should consult Your personal tax advisor and the Social Security Administration as well as other applicable social service agencies before requesting this benefit.
- (6) This Rider does not provide coverage for confinement in a nursing home facility or long term care benefits.

DESCRIPTION OF BENEFITS

An Accelerated Death Benefit is an advance of a portion of the Policy's Coverage Amount prior to the Insured's death due to a diagnosis of a Terminal Illness by a Physician.

DEFINITIONS

The following definitions are described in more detail in the Rider.

Coverage Amount means the death benefit payable under the terms of the Policy including any increases resulting from an optional automatic increase rider.

Maximum Accelerated Death Benefit Amount means the specific percentage maximum for the Terminal Illness benefit that is shown in the Additional Policy Specifications page.

Overall Maximum Accelerated Death Benefit Amount means the 75% percentage of the Coverage Amount maximum that is applicable to the Terminal Illness Benefit Amounts that are payable under this Rider.

Processing Charge means the processing charge up to a maximum of \$250 that may be charged at the time an Accelerated Death Benefit Amount becomes payable and, if charged, will be deducted directly from that amount. If charged, the processing charge will only be charged once in the event that the Insured becomes eligible for more than one acceleration.

Terminal Illness means a medical condition that is reasonably expected to result in a drastically limited life span for the Insured of 12 months or less.

Terminal Illness Benefit Amount means the percentage of the Coverage Amount that is payable as shown in the Additional Policy Specifications page.

PREMIUMS AND WAIVER OF PREMIUMS

The premium for the Rider will be shown on the Endorsement for Rider Specifications page. There is no extra premium for the Terminal Illness benefit. However, upon Our approval of an acceleration of the Coverage Amount to be paid as described in the Rider, We will waive the premiums due for the Coverage Amount provided by the Policy, including the premiums for all optional riders attached to the Policy. If the qualifying events for the accelerated benefits described in the Rider no longer apply, then the premium payments will be reduced proportionally to the reduction in Coverage Amount.

FORM OF PAYMENTS

Benefit payments may be made as a lump sum or as a series of periodic payments as set forth on the Endorsement for Rider Specifications page.

EFFECT ON THE POLICY BENEFITS IF BENEFITS ARE PAID

Adjusted Coverage Amount Due to Acceleration: The Coverage Amount that is payable at the death of the Insured will be reduced by the total of Terminal Illness benefit payments paid to the Owner but in no event by more than the specific Terminal Illness benefit maximums or the Overall Maximum Accelerated Death Benefit Amount. If the Insured dies while the Policy is in force, the remaining Coverage Amount proceeds will be paid to the Beneficiary. No further payments under this Benefit will be made to the Owner.

A statement entitled “Statement of Effect of Acceleration of Benefits” showing the effect of the acceleration of payment on the Coverage Amount and the premium and showing the Processing Charge (if payable) will be provided.

Here is an example of the effect of a 30% lump sum option (less the \$250 Processing Charge) for an accelerated benefit payment for a terminal illness on the remaining life insurance benefit:

| | |
|--|------------------|
| Coverage Amount | \$10,000 |
| Processing Charge | (\$250) |
| Amount of Accelerated Benefit | <u>(\$2,750)</u> |
| Remaining Coverage Amount After Acceleration | \$7,000 |

We pay the benefit amount shown for this rider on the Benefit Summary to the rider beneficiary after we receive written proof that the death of an insured child occurred:

1. while this rider and the certificate are in force; and
2. before the insured child's 26th birthday.

SUICIDE

Insured Child. If an insured child dies by suicide, whether sane or insane, within 2 years from the date he or she is insured, our liability for that insured child is limited to a return of all premiums paid for this rider.

Certificate Insured. In the event of suicide of the certificate insured within 2 years from the date of the enrollment for this rider, coverage for any insured children may be converted as explained in the Conversion Option for Insured Child provision of this rider.

PREMIUMS

The annual premium for this rider is shown Benefits Summary.

REINSTATEMENT

The certificateholder's rider may be reinstated upon reinstatement of the certificate if satisfactory evidence of insurability is furnished to us with respect to each insured child and for each insured within 15 days of the reinstatement of the certificate. The death of an insured child before the date of the reinstatement or evidence of insurability unsatisfactory to us with respect to an insured child shall not preclude the reinstatement of the certificate and the rider on the lives of those for whom the evidence of insurability is satisfactory to us.

MISSTATEMENT OF AGE

If the age of any insured child is misstated, any benefit payable with respect to such insured child is determined by the correct age.

CONVERSION OPTION FOR INSURED CHILD

We provide a conversion option to an individual policy for each insured child when that insured child's coverage ends:

1. at his or her 26th birthday. We must receive a written request for this conversion option within 30 days of the insured child's 26th birthday and while this rider is in force; or
2. due to the certificate insured reaching age 70. We must receive a written request for this conversion option within 30 days of the certificate insured's attained age 70; or
3. due to the death of the certificate insured, including death by suicide. We must receive a written request for this conversion option within 30 days of the certificate insured's death.

Upon receipt of such request, we will send a questionnaire to determine the tobacco use status of the insured child. Other than this requirement, no additional evidence of insurability is required. The new policy will have a standard premium class.

The insured child may select the policy and amount of insurance for the new policy. The policy may be any other non-term life policy currently being offered:

1. at the insured child's attained age; and
2. for the amount of insurance selected by the insured child; and
3. for an amount of insurance not more than 5 times the death benefit of this rider, not to exceed \$50,000; and
4. for an amount of insurance not less than the minimum benefit amount available for that policy on the conversion date.

Premiums for the new policy are:

1. at the rate in effect for the insured child's attained age and premium class on the conversion date; and
2. subject to our rules on frequency of premium payments in effect on the conversion date. Coverage under this rider ends for that insured child when coverage under the new policy begins. The new policy will not include any additional benefits or riders unless agreed to by us.

RIDER BENEFICIARY

If not otherwise named in the enrollment form and/or evidence of insurability form for this rider, the certificateholder is the rider beneficiary.

The certificateholder may change the rider beneficiary by a written request to us:

1. while the insured child is alive; and
2. if the prior designation does not prohibit such a change.

A change revokes any prior designation.

If not provided otherwise:

1. The interest of any named rider beneficiary who dies before the insured child, passes to the remaining named rider beneficiaries in equal shares, if any.
2. If no named rider beneficiary survives the insured child, the death benefit of the rider is paid to the certificateholder, if living, otherwise to the certificateholder's estate.

INCONTESTABILITY

We cannot contest payment of this rider once this rider has been in force while each insured child is alive for 2 years from the rider date except for:

1. nonpayment of premiums; and
2. the coverage on any insured child who is added subsequent to the rider date. This 2 year period begins on the date he or she becomes an insured child.

CONTINUATION OF COVERAGE

This Rider allows for the continuation of coverage for a mentally or physically disabled child.

1. Proof of the disability shall be sent to 5 Star Life Insurance Company within 31 days after the Child attains the age limit and annually beginning two years after such date;
2. insurance shall continue while such Child remains incapable of self-sustaining employment because of the disability and continues to meet the definition of Child except for the age limit;
3. coverage will end when:
 - a. the disability ends
 - b. you or your child cannot prove the disability continues
 - c. you refuse to have your child undergo any required exam
 - d. there is a reason to end it other than your dependent child reaching maximum age; and
4. if at the end of the continuation period the Child is no longer eligible for insurance under the certificate, the conversion provision outlined in the Conversion Option for Insured Child section describes the Child's right to convert.

TERMINATION

This rider terminates and is no longer in force on the date the group policy terminates.

Coverage for each insured child automatically terminates on the earlier of his or her 26th birthday or the date the certificateholder's rider terminates.

The certificateholder's rider terminates and is no longer in force on the earliest of:

1. the death of the certificate insured (see Conversion Option for Insured Child); or
2. the date any premium for the rider or the certificate remains unpaid, subject to the grace period provision of the certificate; or
3. the date the certificate insured turns age 70; or
4. the date the certificate terminates; or
5. the monthly date on or next following the date we receive the certificateholder's written request to terminate.

GENERAL

This rider is a part of the policy to which it is attached. This rider has no cash or loan value.

If an insured child dies during the grace period, we deduct the unpaid premium from the benefit to be paid.

These limits are applied for each insolvent insurance company.

IMPORTANT THINGS TO CONSIDER

1. Review your own insurance needs and circumstances. Choose the kind of policy that has benefits that most closely fit your needs. Ask an agent or company to help you.
2. Be sure that you can handle premium payments. Can you afford the initial premium? If the premium increases later and you still need insurance, can you still afford it?
3. Don't sign an insurance application until you review it carefully to be sure all the answers are complete and accurate.
4. Don't buy life insurance unless you intend to stick with your plan. It may be very costly if you quit during the early years of the policy.
5. Don't drop one policy and buy another without a thorough study of the new policy and the one you have now. Replacing your insurance may be costly.
6. Read your policy carefully. Ask your agent or company about anything that is not clear to you.
7. Review your life insurance program with your agent or company every few years to keep up with changes in your income and your needs.

Buying Life Insurance

When you buy life insurance, you want coverage that fits your needs.

First, decide how much you need--and for how long--and what you can afford to pay. Keep in mind the major reason you buy life insurance is to cover the financial effects of unexpected or untimely death. Life insurance can also be one of many ways you plan for the future.

Next, learn what kinds of policies will meet your needs and pick the one that best suits you.

Then, choose the combination of policy premium and benefits that emphasizes protection in case of early death, or benefits in case of long life, or a combination of both.

It makes good sense to ask a life insurance agent or company to help you. An agent can help you review your insurance needs and give you information about the available policies. If one kind of policy doesn't seem to fit your needs, ask about others.

This guide provides only basic information. You can get more facts from a life insurance agent or company or from your public library.

What About the Policy You Have Now?

If you are thinking about dropping a life insurance policy, here are some things you should consider:

- If you decide to replace your policy, don't cancel your old policy until you have received the new one. You then have a minimum period to review your new policy and decide if it is what you wanted.
- It may be costly to replace a policy. Much of what you paid in the early years of the policy you have now, paid for the company's cost of selling and issuing the policy. You may pay this type of cost again if you buy a new policy.
- Ask your tax advisor if dropping your policy could affect your income taxes.

- If you are older or your health has changed, premiums for the new policy will often be higher. You will not be able to buy a new policy if you are not insurable.
- You may have valuable rights and benefits in the policy you now have that are not in the new one.
- If the policy you have now no longer meets your needs, you may not have to replace it. You might be able to change your policy or add to it to get the coverage or benefits you now want.
- At least in the beginning, a policy may pay no benefits for some causes of death covered in the policy you have now.

In all cases, if you are thinking of buying a new policy, check with the agent or company that issued you the one you have now. When you bought your old policy, you may have seen an illustration of the benefits of your policy. Before replacing your policy, ask your agent or company for an updated illustration. Check to see how the policy has performed and what you might expect in the future, based on the amounts the company is paying now.

How Much Do You Need?

Here are some questions to ask yourself:

- How much of the family income do I provide? If I were to die early, how would my survivors, especially my children, get by? Does anyone else depend on me financially, such as a parent, grandparent, brother or sister?
- Do I have children for whom I'd like to set aside money to finish their education in the event of my death?
- How will my family pay final expenses and repay debts after my death?
- Do I have family members or organizations to whom I would like to leave money?
- Will there be estate taxes to pay after my death?
- How will inflation affect future needs?

As you figure out what you have to meet these needs, count the life insurance you have now, including any group insurance where you work or veteran's insurance. Don't forget Social Security and pension plan survivor's benefits. Add other assets you have: savings, investments, real estate and personal property. Which assets would your family sell or cash in to pay expenses after your death?

What Is the Right Kind of Life Insurance?

All policies are not the same. Some give coverage for your lifetime and others cover you for a specific number of years. Some build up cash values and others do not. Some policies combine different kinds of insurance, and others let you change from one kind of insurance to another. Some policies may offer other benefits while you are still living. Your choice should be based on your needs and what you can afford.

There are two basic types of life insurance: *term insurance* and *cash value insurance*. Term insurance generally has lower premiums in the early years, but does not build up cash values that you can use in the future. You may combine cash value life insurance with term insurance for the period of your greatest need for life insurance to replace income.

Term Insurance

Term Insurance covers you for a term of one or more years. It pays a death benefit only if you die in that term. Term insurance generally offers the largest insurance protection for your premium dollar. It generally does not build up cash value.

You can renew most term insurance policies for one or more terms even if your health has changed. Each time you renew the policy for a new term, premiums may be higher. Ask what the premiums will be if you continue to renew the policy. Also ask if you will lose the right to renew the policy at some age. For a higher premium, some companies will give you the right to keep the policy in force for a guaranteed period at the same price each year. At the end of that time you may need to pass a physical examination to continue coverage, and premiums may increase.

You may be able to trade many term insurance policies for a cash value policy during a conversion period--even if you are not in good health. Premiums for the new policy will be higher than you have been paying for the term insurance.

Cash Value Life Insurance

Cash Value Life Insurance is a type of insurance where premiums charged are higher at the beginning than they would be for the same amount of term insurance. The part of the premium that is not used for the cost of insurance is invested by the company and builds up a cash value that may be used in a variety of ways. You may borrow against a policy's cash value by taking a policy loan. If you don't pay back the loan and the interest on it, the amount you owe will be subtracted from the benefits when you die or from the cash value if you stop paying premiums and take out the remaining cash value. You can also use your cash value to keep insurance protection for a limited time or to buy a reduced amount without having to pay more premiums. You also can use the cash value to increase your income in retirement or to help pay for needs such as a child's tuition without canceling the policy. However, to build up this cash value, you must pay higher premiums in the earlier years of the policy. Cash value life insurance may be one of several types; whole life, universal life and variable life are all types of cash value insurance.

Whole Life Insurance

Whole Life Insurance covers you for as long as you live if your premiums are paid. You generally pay the same amount in premiums for as long as you live. When you first take out the policy, premiums can be several times higher than you would pay initially for the same amount of term insurance. But they are smaller than the premiums you would eventually pay if you were to keep renewing a term policy until your later years.

Some whole life policies let you pay premiums for a shorter period such as 20 years, or until age 65. Premiums for these policies are higher since the premium payments are made during a shorter period.

Universal Life Insurance

Universal Life Insurance is a kind of flexible policy that lets you vary your premium payments. You can also adjust the face amount of your coverage. Increases may require proof that you qualify for the new death benefit. The premiums you pay (less expense charges) go into a policy account that earns interest. Charges are deducted from the account. If your yearly premium payment plus the interest your account earns is less than the charges, your account value will become lower. If it keeps dropping, eventually your coverage will end. To prevent that, you may need to start making premium payments, or increase your premium payments, or lower your death benefits. Even if there is enough in your account to pay the premiums, continuing to pay premiums yourself means that you build up more cash value.

Variable Life Insurance

Variable Life Insurance is a kind of insurance where the death benefits and cash values depend on the investment performance of one or more separate accounts, which may be invested in mutual funds or other investments allowed under the policy. Be sure to get the prospectus from the company when buying this kind of policy and **STUDY IT CAREFULLY**. You will have higher death benefits and cash value if the underlying investments do well. Your benefits and cash value will be lower or may disappear if the investments you chose didn't do as well as you expected. You may pay an extra premium for a guaranteed death benefit.

Life Insurance Illustrations

You may be thinking of buying a policy where cash values, death benefits, dividends or premiums may vary based on events or situations the company does not guarantee (such as interest rates). If so, you may get an illustration from the agent or company that helps explain how the policy works. The illustration will show how the benefits that are not guaranteed will change as interest rates and other factors change. The illustration will show you what the company guarantees. It will also show you what *could* happen in the future. Remember that nobody knows what will happen in the future. You should be ready to adjust your financial plans if the cash value doesn't increase as quickly as shown in the illustration. You will be asked to sign a statement that says you understand that some of the numbers in the illustration are not guaranteed.

Finding a Good Value in Life Insurance

After you have decided which kind of life insurance is best for you, compare similar policies from different companies to find which one is likely to give you the best value for your money. A simple comparison of the premiums is not enough. There are other things to consider. For example:

- Do premiums or benefits vary from year to year?
- How much do the benefits build up in the policy?
- What part of the premiums or benefits is not guaranteed?

Remember that no one company offers the lowest cost at **all** ages for **all** kinds and amounts of insurance. You should also consider other factors:

- How quickly does the cash value grow? Some policies have low cash values in the early years that build quickly later on. Other policies have a more level cash value build-up. A year-by-year display of values and benefits can be very helpful. (The agent or company will give you a policy summary or an illustration that will show benefits and premiums for selected years.)
- Are there special policy features that particularly suit your needs?
- How are nonguaranteed values calculated? For example, interest rates are important in determining policy returns. In some companies increases reflect the average interest earnings on all of that company's policies regardless of when issued. In others, the return for policies issued in a recent year, or a group of years, reflects the interest earnings on that group of policies; in this case, amounts paid are likely to change more rapidly when interest rates change.
