

Easy access to legal help through our website

Simple login and guided process to get the legal help you need

The MetLife Legal Plans website makes it easy for you to access your benefits and find attorneys. Members and those interested in learning more can create an account on our website to explore the many benefits of the legal plan. Members can also access our digital estate planning solution.

Getting started

Visit legalplans.com, and create an account with the email of your choice, personal or work, and password to begin setting up your account. When you first enter the site, you will be asked to provide some personal information, including your full name, address and the employer or organization offering the Legal Plan to confirm your eligibility.

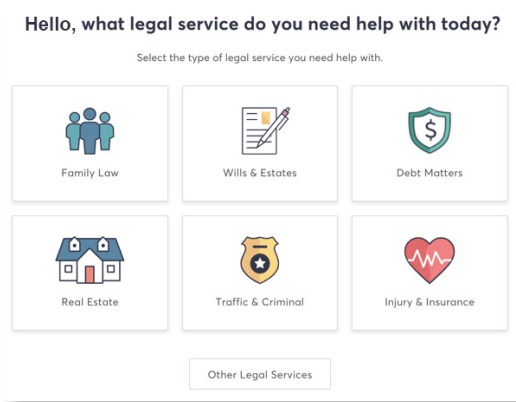

You have the option to set up Multi-Factor Authentication to enhance the security of your account. To set this up, go to “Login settings” and select “Enable” for “Multi-factor Authentication.” You will receive a security code by email every time you log in that you will need to enter to access the site.

You can create an account on the site before you are enrolled to learn more about available coverages as well as see our attorney network, access self-help documents and begin creating your estate planning documents that you can finish once you enroll.

Using your plan

Once you are enrolled in the plan and we confirm your eligibility, you will have full access to our website to select what coverage you’re interested in and find an attorney near you from our network.

You will also have access to a guided process to see your coverages and be connected to an attorney to help you with your legal issue. After you select an attorney to help you with your issue, we will send you an email with the attorney’s contact information and the case number you’ll need to provide to the attorney when you make an appointment. All you need to do after that is call the attorney to discuss your issue or make an appointment.

Digital estate planning solution

Once you are enrolled, the website also provides you with the ability to create wills, living wills and powers of attorney online. The self-guided process allows you to create state-specific documents for yourself and your spouse. In states where available, you can be connected to a notary and witnesses to finalize your documents virtually. You can access the service by clicking on “Wills and Estates” from the main menu, and then clicking on “Estate Plan Bundle” from the coverage page. We will ask you a few questions to make sure that the online process is the best fit for you, and if it’s not, we will direct you to our attorney network.

If you need help setting up an account or using the site, please contact us at 800.821.6400.
